The XTf is a stylish floor standing solution

The XTf is the newwest addition to the 10Squared range and reflects the company's on-going commitment to both form and function. Its stylish design is ideally suited to a number of different environments where it can be used in many different ways.

Features

The stylish and versatile XTf can be used for automatic check-in, as a payment kiosk, can print tickets and receipts or can be used for information and wayfinding. It contains an 18.5 inch 16:10 Capacitive or Projected Capacitve (flush) touch screen. The XTf provides an eye catching and highly effective platform for many types of software.

Construction

Manufactured from aluminium and powder coated to a RAL colour of your choice, the XTf can also be branded by means of engraving or the application of a digitally printed vinyl.

The on board PC is hand built using selected industrial components ensuring longevity and reliability in even the harshest of environments. It also means the unit can be fully and efficiently supported if necessary
